

# CAPABILITY STATEMENT

## COMPANY OVERVIEW

SGK Global Services is a federal prime delivering integrated logistics, engineering, and mission sustainment for DoD, government, and enterprise clients. As a Prime on the \$10B WEXMAC 2.1 (Region 27) and \$4B SeaPort-NxG IDIQs, SGK provides nationwide, full-spectrum support—supply, transportation, lodging, MHE, construction equipment, force protection, warehousing, and technical, technology related support—with 72-hour responsiveness and firm-fixed-price discipline.

## MISSION STATEMENT

Driving mission success with dependable, compliant logistics and technology support on time, every time, so decision-makers can execute with precision.

## CORE COMPETENCIES

- ✓ **Expeditionary & Base Logistics:**  
End-to-end supply, transportation, staging, lodging, and force protection with rapid surge capability under FFP task orders.
- ✓ **Material Handling & Construction Equipment:**  
Provision of MHE and heavy equipment, with or without operators; scaffolding and specialized equipment support.
- ✓ **Warehousing & Distribution:**  
Secure storage, inventory management, kitting, and last-mile delivery with real-time tracking and reporting.
- ✓ **Program & Engineering Support:**  
Engineering, logistics, and program management services for federal and defense clients, including support across multiple functional areas.
- ✓ **Compliance & Cybersecurity:**  
Adherence to FAR/DFARS, SCA wage determinations, and NIST SP 800-171 standards, with assessments documented in SPRs.

## DIFFERENTIATORS

- ✓ **DIFFERENTIATORS Prime on Two Navy IDIQs:**  
WEXMAC 2.1 (Region 27) and SeaPort-NxG, demonstrated ability to deliver at scale with rapid response times.
- ✓ **Agility & Control:**  
48-hour surge readiness; firm-fixed-price delivery covering all mobilization and demobilization costs.
- ✓ **Compliance-Driven:**  
Full compliance with federal regulations, wage determinations, and cybersecurity requirements.
- ✓ **Integrated Operations:**  
Unified planning, warehousing, transportation, and field support with real-time visibility. Cost Efficiency: Proven methodologies for managing CONUS task orders, minimizing risk, and controlling costs.
